写作:

We all hope to be popular with our classmates and teachers. To enjoy popularity, we are supposed to regard the class as our big family and even offer to sacrifice our personal interests whenever necessary. While taking an active part in all our class activities, we should work responsibly to build up a good reputation as a team.

To be students with high popularity, we are to show respect, concern and sympathy for others. As a result, we never hesitate to lend a hand to those in need.

To be a popular student, we ought to be strict with ourselves in everything we do at school and make every effort to achieve all-round development, being good not only at our lessons but also at sports, music, painting, social services and so on. In time of success we remain modest, while in time of difficulty we keep strong-minded.

All in all, popularity among classmates and teachers comes naturally to those who keep improving their personal qualities.
